

## SYSTEM REQUIREMENTS (7/2002)

### WorkStations:

Intel Pentium® class with 64MB or more RAM (128MB Recommended). SVGA Monitor (800x600) minimum resolution (1024x768 Recommended). 4GB or greater hard disk. Microsoft® Windows® 98 SE, NT 4 SP5, 2000 Professional or XP Professional. Large Monitors are recommended for Map Display workstations.

### File Servers:

Intel Pentium class with 128MB or more RAM (256MB Recommended). SVGA Monitor (800x600) minimum resolution. 9GB or greater SCSI hard disk. Mirroring or RAID strongly recommended. Microsoft Windows NT Server 4 SP5, 2000 Server or Novell Netware.

### Networking:

100Mhz Ethernet, CAT 5 cabling. Large Installations should consider using Switches instead of Hubs.

### Support Accessories:

- Battery Backup on Workstations, Server & Network Equipment
- Tape, CDR, Optical or Remote Data Backup
- USR Sportster 56K External Modem (for remote support)
- Symantec pcAnywhere version 8 - 9.2 or 10.5 (10.0 not supported)
- Dedicated Cable/DSL/Frame Internet connection highly recommended
